

## WELCOME TO YYACHTS

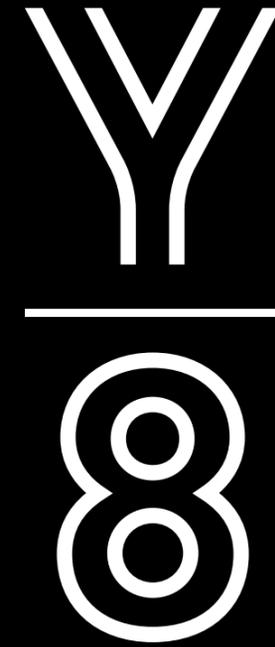

We are specialized in crafting light and fast sailing yachts, focusing on simplicity in engineering and design. Our yachts, ranging from 60 to 100 feet, are built with a carbon hull, deck as well as masts, ensuring superior strength and durability. And we are focused that a sailing yacht must be intuitively and simple to use, also easy to manage for perfect owner-driven experience. With designs from the world's top architects and the commitment to quality expected of a German shipyard, we offer the luxury and comfort unique to high-end yachts.

THE ART OF SIMPLICITY

YYachts' Y8 represents a bold departure in design while honoring the legacy of its predecessors. The model showcases a fresh approach to sailing yacht architecture, combining innovative technology with luxurious aesthetics – a benchmark in modern yacht building.

ADVANCED SIMPLICITY,  
LUXURIOUS SAILING

## UNPARALLELED PERFORMANCE

"At YYachts we constantly question ourselves, what can be improved, and what deserves to be preserved because it has proven itself. The Y8 is a prime example of this philosophy. It represents a completely new approach compared to our previous models – with a reinterpretation of the coach roof and cockpit, created by a design icon together with a YYachts owner who had sailed his

Y7 for many years. We also pursued a new direction in the interior: the owner wanted generous space, and this Y8 features a salon larger than that of many 90-footers he had initially considered. The Y8 combines state-of-the-art technology with timeless elegance and sets a new benchmark for powerful, comfortable sailing."

**Michael Schmidt** Founder YYachts

Y

Drawing from the rich heritage the Y8 embodies a transformative vision. Spearheaded by the esteemed naval architect Javier Jaudenes from Surge-Projects and a distinguished in-house design team, this yacht introduces a radically new silhouette. Jaudenes, known for his award-winning designs, has once again delivered a design that marries sleek elegance with high performance.

This next-generation yacht boasts a salon of unparalleled size for its class, featuring vertical walls that enhance the sense of space. This architectural feat not only maximizes interior volume by 20% compared to its predecessor but also opens up a myriad of layout possibilities.

Owners can tailor the interior to their tastes, with YYachts offering four pre-designed styles. Yet, the customization possibilities are limitless, with bespoke furniture options available to meet any owner's vision.

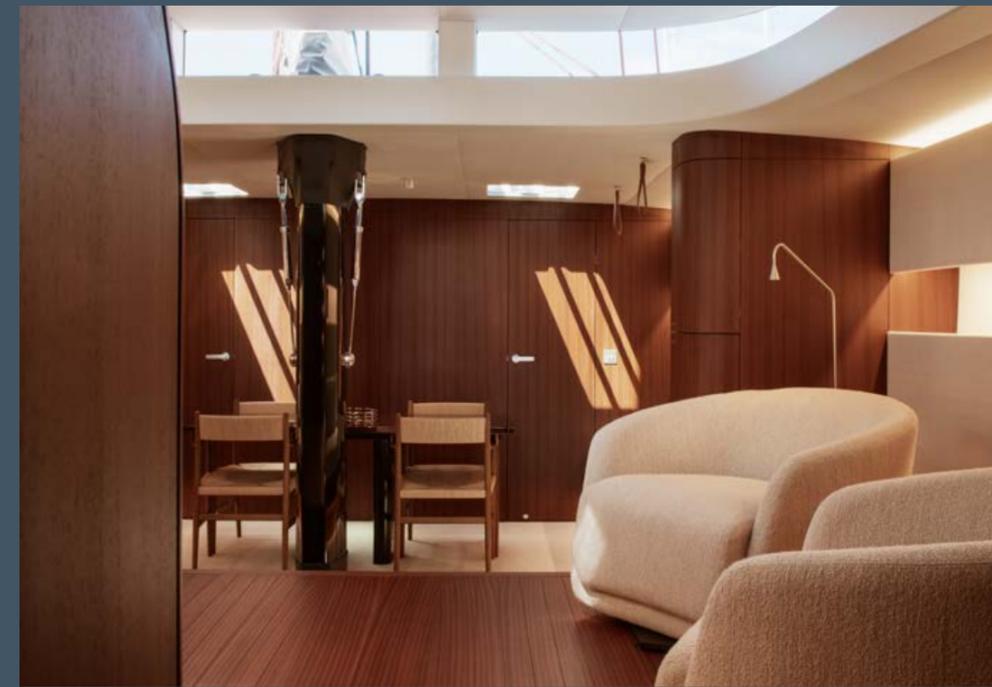

EFFORTLESS SAILING  
WITH LUXURIOUS  
SOPHISTICATION

# HARMONIOUS AND INDIVIDUAL

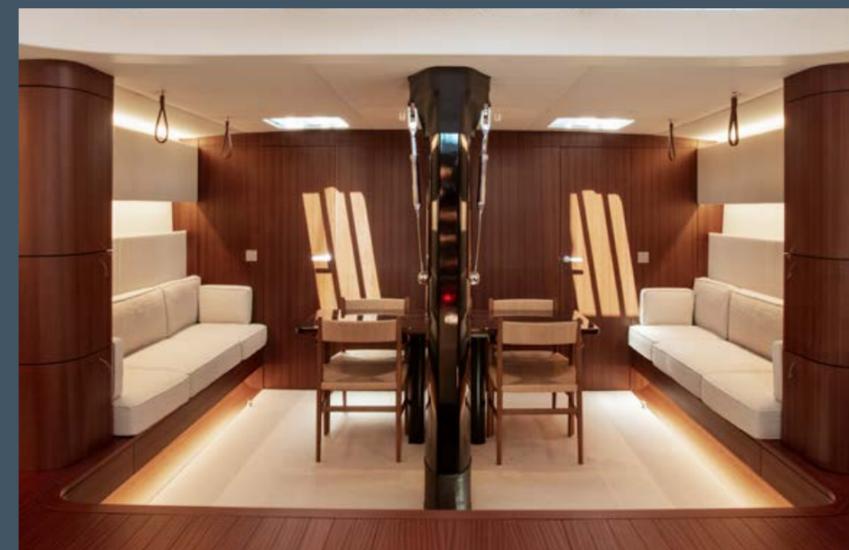

The interior, designed by renowned Danish designer David Thulstrup, reflects a sophisticated blend of modern and Scandinavian influences. Thulstrup's design prioritizes warmth and comfort, using a palette of beige, brown, and wood tones to create an inviting and elegant atmosphere.

His approach ensures that each space within the yacht resonates with the occupants' well-being, making the Y8 not just a mode of transportation but a sanctuary on the sea. The owner's suite, including a separate salon, can be located either in the bow or in the stern with direct access to the cockpit.

The galley can be installed open or closed, and three or four cabins can be fitted. By moving the engine room below the salon floor, the yacht has a lower center of gravity and thus a better balance, which results in additional speed.

## AVANT-GARDE DESIGN, EXQUISITE BALTIC CRAFTSMANSHIP

A RELAXING  
ATMOSPHERE

## BESPOKE LUXURIOUS APARTMENT

True to YYachts' philosophy of 'keeping it simple,' the Y8 continues to offer pre-engineered solutions that make sailing effortless while preserving the highest levels of comfort and luxury.

"For me, this Y8 is a very special design," says Michael Schmidt. "After all, I founded the shipyard with the first Y8. In between,

there were a lot of orders. But yachting is always evolving due to new building materials, different rigs and also the regatta scene."

This is what inspires us at YYachts to continually develop new products. Moreover, the Y8 introduces technical enhancements such as standard a

carbon mast, a hydraulic main sheet system, and all winches close to the helm stations, which underscore YYachts' commitment to build owner driven boats.

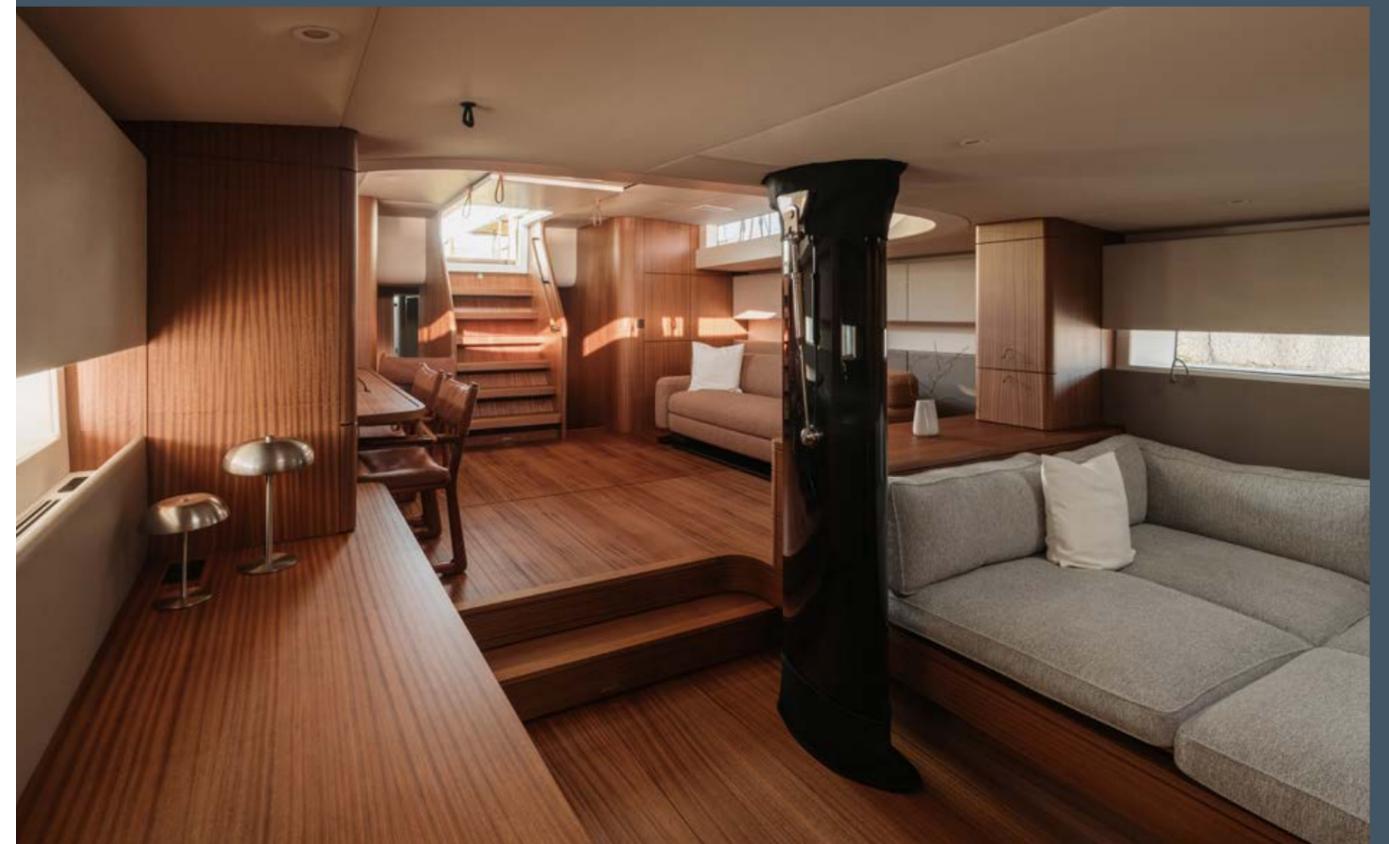

These features, along with the self-tacking jib and a lack of a backstay, enhance the yacht's performance and ease of handling, ensuring an enjoyable sailing experience.

On board the Y8, space means flexibility.  
The generous interior volume allows you to  
shape the layout around your lifestyle and  
everyday needs, while always keeping a  
soft and refined atmosphere of luxury.

## EXCEPTIONAL TAILOR MADE

Y  
8

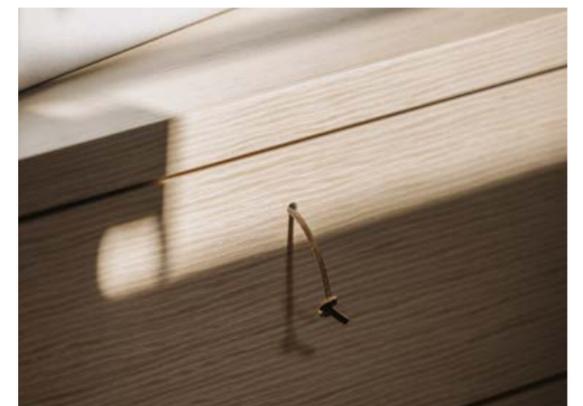

With a wide selection of premium materials and colors, each yacht can be fully tailor-made to reflect your personal taste. Guided by our experienced design team, who will suggest the most harmonious combinations, and enhanced by the clean, elegant lines of the interior, every Y8 becomes a unique expression of timeless elegance.

# YOUR INDIVIDUAL YACHT LAYOUT

As individual as you are – the Y8 offers countless possibilities to shape life below deck exactly to your vision. Whether you prefer open, flowing spaces or a clear separation of private and crew areas, every detail can be tailored to your lifestyle. Crew cabins, navigation station, and galley can be placed discreetly in the stern, ensuring maximum privacy and undisturbed moments on board. The Y8 is one of the most customizable yachts in the 25-meter class – combining speed, design, comfort, and effortless handling with a layout as unique as its owner.
